

United Way Worldwide Haiti & Chile Response

United Way Worldwide has been working to re-build the lives of the Haitian communities affected by the January 12, 2010 earthquake. And now, with the devastation of the February 27, 2010 earthquake in Chile, local and worldwide United Way's are collaborating together to bring relief to these Chilean communities.

United Way Worldwide continues to encourage donors to support long-term recovery efforts to rebuild the lives and infrastructure devastated by these two massive earthquakes. The relief efforts worldwide have been impressive in showing the true spirit of LIVING and GIVING UNITED.

If you, or anyone you know, is interested in supporting the continuing efforts in Haiti and Chile, please visit United Way Worldwide's website at <https://volunteer.united-eway.org/uwwwdisaster/donate>. We have also provided a link to their site from Orange County United Way's website at www.unitedwayoc.org.

You can also continue to text HAITI to 864833 (UNITED) to make a \$5 donation to United Way Worldwide disaster recovery fund. Information for making physical donations can be accessed at www.aidtohaiti.org.

Thanks much and have a great day - once again knowledgeable of our many blessings.

LIVE and GIVE UNITED
